

Bath Taps into Science
presents

Mark Miodownik

Family Talk - Wednesday 18th March

Times: 6pm – 7pm

Refreshments from 5:30pm

On earth there is stuff that we call life, and non-living stuff that we call rocks, tools, buildings and so on. This distinction is now becoming blurred. In the future bionic people with synthetic organs, bones and even brains will be the norm.

At the University of Bath

This **FREE** talk reviews the changes to the material world that are coming our way and is suitable for people of all ages.

**BOOKING ESSENTIAL ON
